# 2020 Community Benefit Report

As a nonprofit health care provider, Union Hospital, Inc. provides compassionate health care of the highest quality to residents of West central Indiana and East central Illinois, regardless of their ability to pay. We reinvest excess revenues to:

- Provide state-of-the-art services such as advanced diagnostic imaging, telemedicine, sophisticated cancer detection and diagnosis, cardiovascular testing and more.
- Meet the needs of rural residents through the Richard G. Lugar Center for Rural Health, the Clay City Center for Family Medicine, the Rural Health Innovation Collaborative (RHIC) and Union Hospital Clinton.
- Provide care and public health education to those in need, including the diabetes and pre-diabetes support groups, as well as childbirth and breastfeeding classes. We also organize several free community health fairs, including the Senior Expo, Community Baby Shower, and Community Connect that allow one-on-one interaction with Union Health clinicians.
- Educate health professionals, strengthen community partnerships, foster economic development and advocate for community health improvements.
